

ASSOCIATION OF ORTHODOX JEWISH SCIENTISTS

“The Interface of Halacha & Science”

August 27, 2007

Dear AOJS Member,

There are a number of items that have been brought up at recent Board of Governors meetings which we would like to present to our membership.

Chapters

There has been significant interest amongst the members of the Board of Governors and other members of the Organization, past and present, to once again build chapters of the AOJS. This is an excellent way to broaden the spectrum of AOJS, further its goal of reaching out to Jewish communities throughout the world and increase participation and involvement of its members. Additionally, it will allow for “new blood” to get involved in the planning and behind-the-scenes work of AOJS.

Chapter building can be a tedious, but quite rewarding job. It consists of publicizing the Organization in a particular city or community to those individuals who may be interested in joining the AOJS and bringing them together to begin programming and participation in projects of the Chapter.

Anyone interested in beginning a Chapter in his or her community is asked to contact the AOJS office.

Intercom

We would like to thank our Executive Director, Yossi Bennett, for taking the reigns on Intercom and successfully publishing consistent, thought-provoking issues for the past 3 years.

However, it is the obligation of the members of the Organization to further this project and keep Intercom up-to-date.

We ask that any members interested in getting involved in Intercom, be it via editing, reviewing, writing, etc. should please contact the AOJS office.

Proceedings

There has been discussion about revamping AOJS Proceedings. This is an exciting endeavor, but a major undertaking. For this to be successful, we would require the assistance of numerous members in the positions of editing, typing, proofreading, etc.

If you are interested, please contact the AOJS office.

Sincerely,

AOJS Board of Governors
